

1 Self attack of the USA – 9/11

The war with Iraq was triggered by the destruction of the World Trade Center.

1.1 Energy balance

Did you know that the energy balance of the WTC destruction process cannot be explained by jet fuel?

000nn012

Fig. 1-1 Source: <http://911research.wtc7.net/wtc/evidence/photos/wtc1exp19.html>

1.2 Analysis of dust samples

Did you know that the collected dust samples of the destroyed World Trade Center contain high levels of nuclear fission products of the **element uranium** ?

Official analysis data; search terms: "Uranium", "Barium", "Strontium"

Table (U.S. Geological Survey USGS – official analysis data)

<http://pubs.usgs.gov/of/2001/ofr-01-0429/chem1/WTCchemistrytable.html>

i

In an induced chain reaction, the element ^{235}U **uranium decays** with a high probability into:

- ^{143}Ba
- ^{93}Sr

Probabilities of uranium splitting into two light atomic nuclei

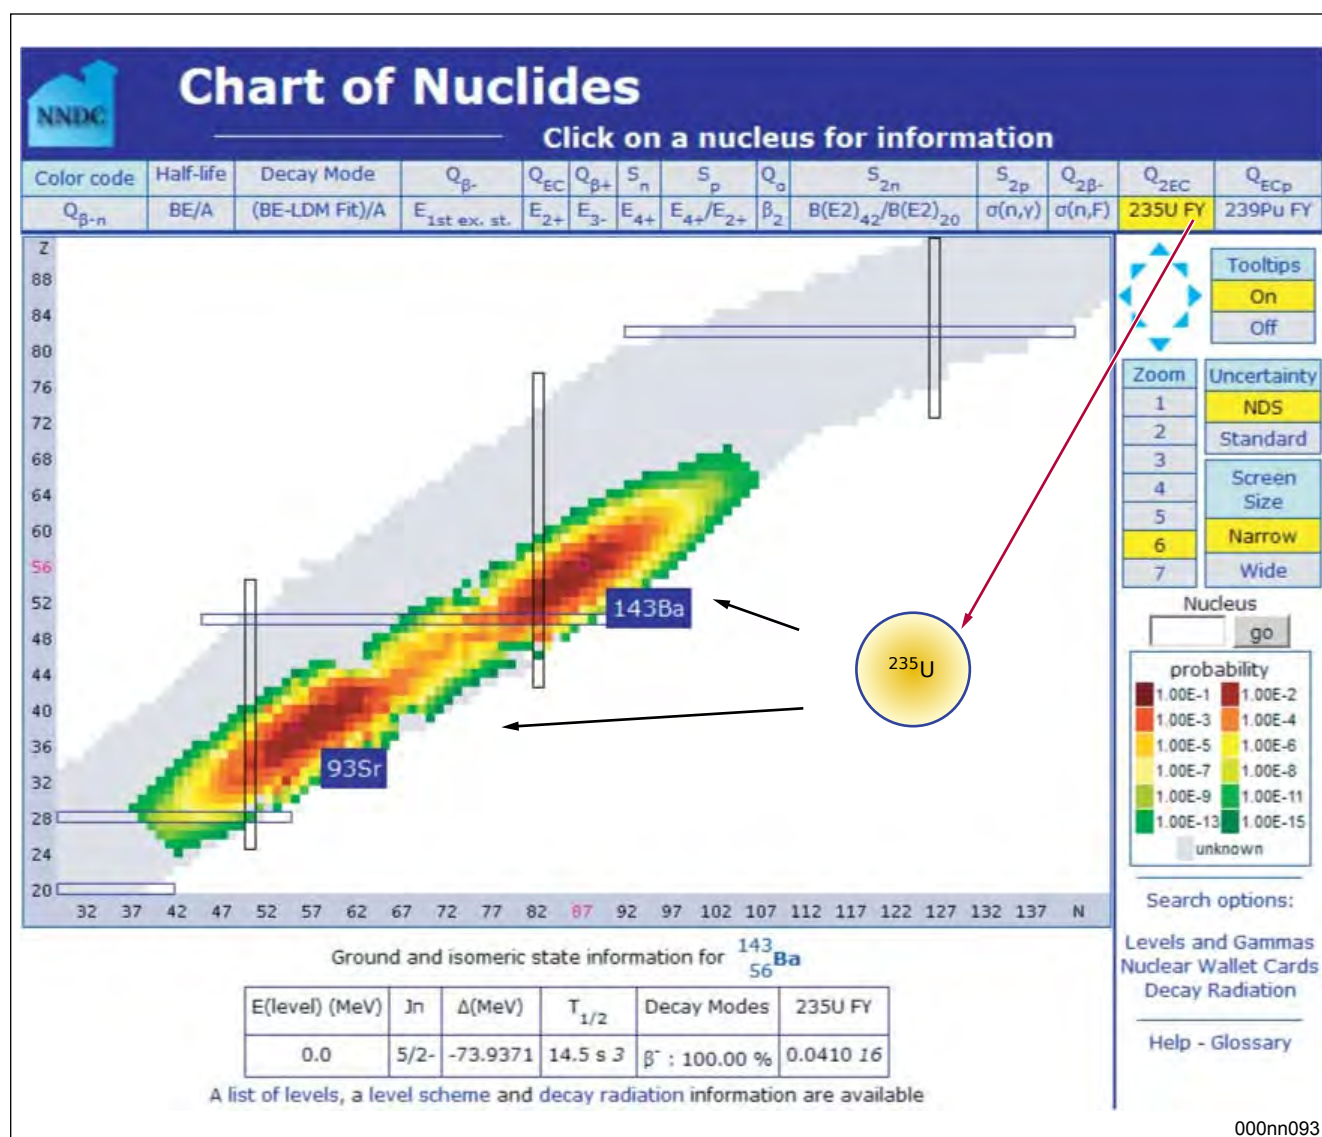

Fig. 1-2 Source: <http://www.nndc.bnl.gov/chart/reCenter.jsp?z=26&n=30>.

1.3 Bursting of the North Tower

Did you know that the North Tower did not collapse but burst open and that it got ripped open at the side?

Ejection of material

000nn247

Fig. 1-3 Source: <http://911research.com/wtc/evidence/photos/wtc1exp6.html>

How can this ejection of material / the sudden removal of the building's steel core and its simultaneous bursting be explained?

?

1.4 Energetically standing wave

Did you know that following an "engergetic event" in a fluid a kind of needle develops, forming a single, standing **shock wave** ?

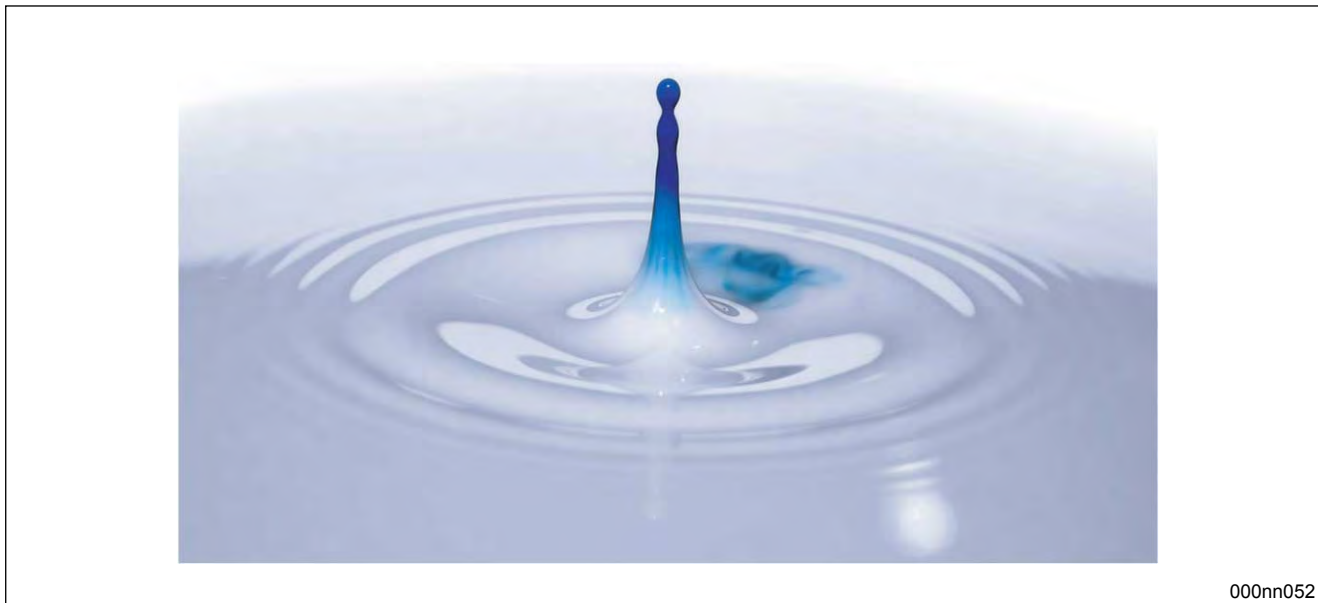

Fig. 1-4 Source: http://en.wikipedia.org/wiki/Drop_%28liquid%29#mediaviewer/File:Blue_Droplet.jpg

Did you know that this standing needle – the soliton – can also develop in solids liquified by a sudden energetic shock and that it can reach temperatures of **more than 3,000 °C** ?

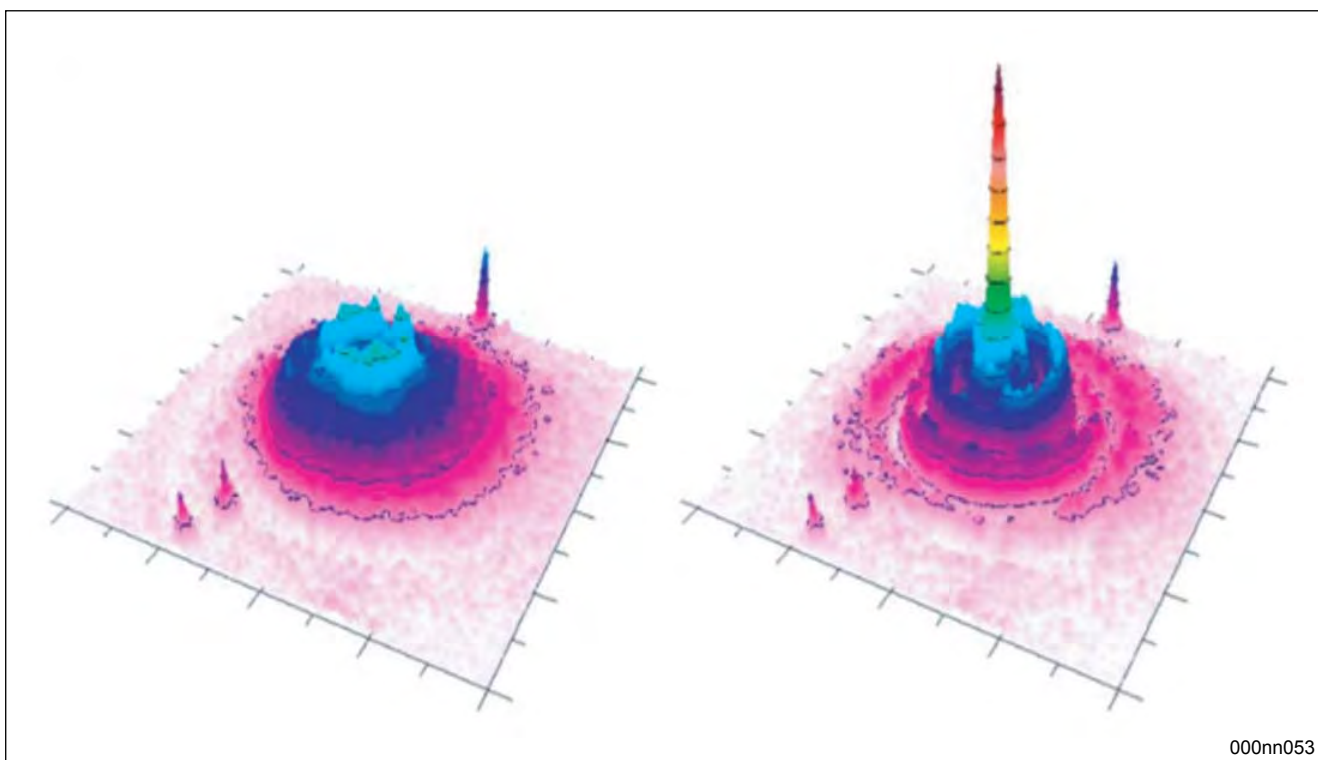

Fig. 1-5 Source: <http://arxiv.org/ftp/arxiv/papers/1309/1309.3083.pdf>

1.5 Lateral eruptions

Did you know that the two towers ejected their own material from the inside out in an eruption – and partly in form of a trajectory parabola?

Ejection of material mapped graphically

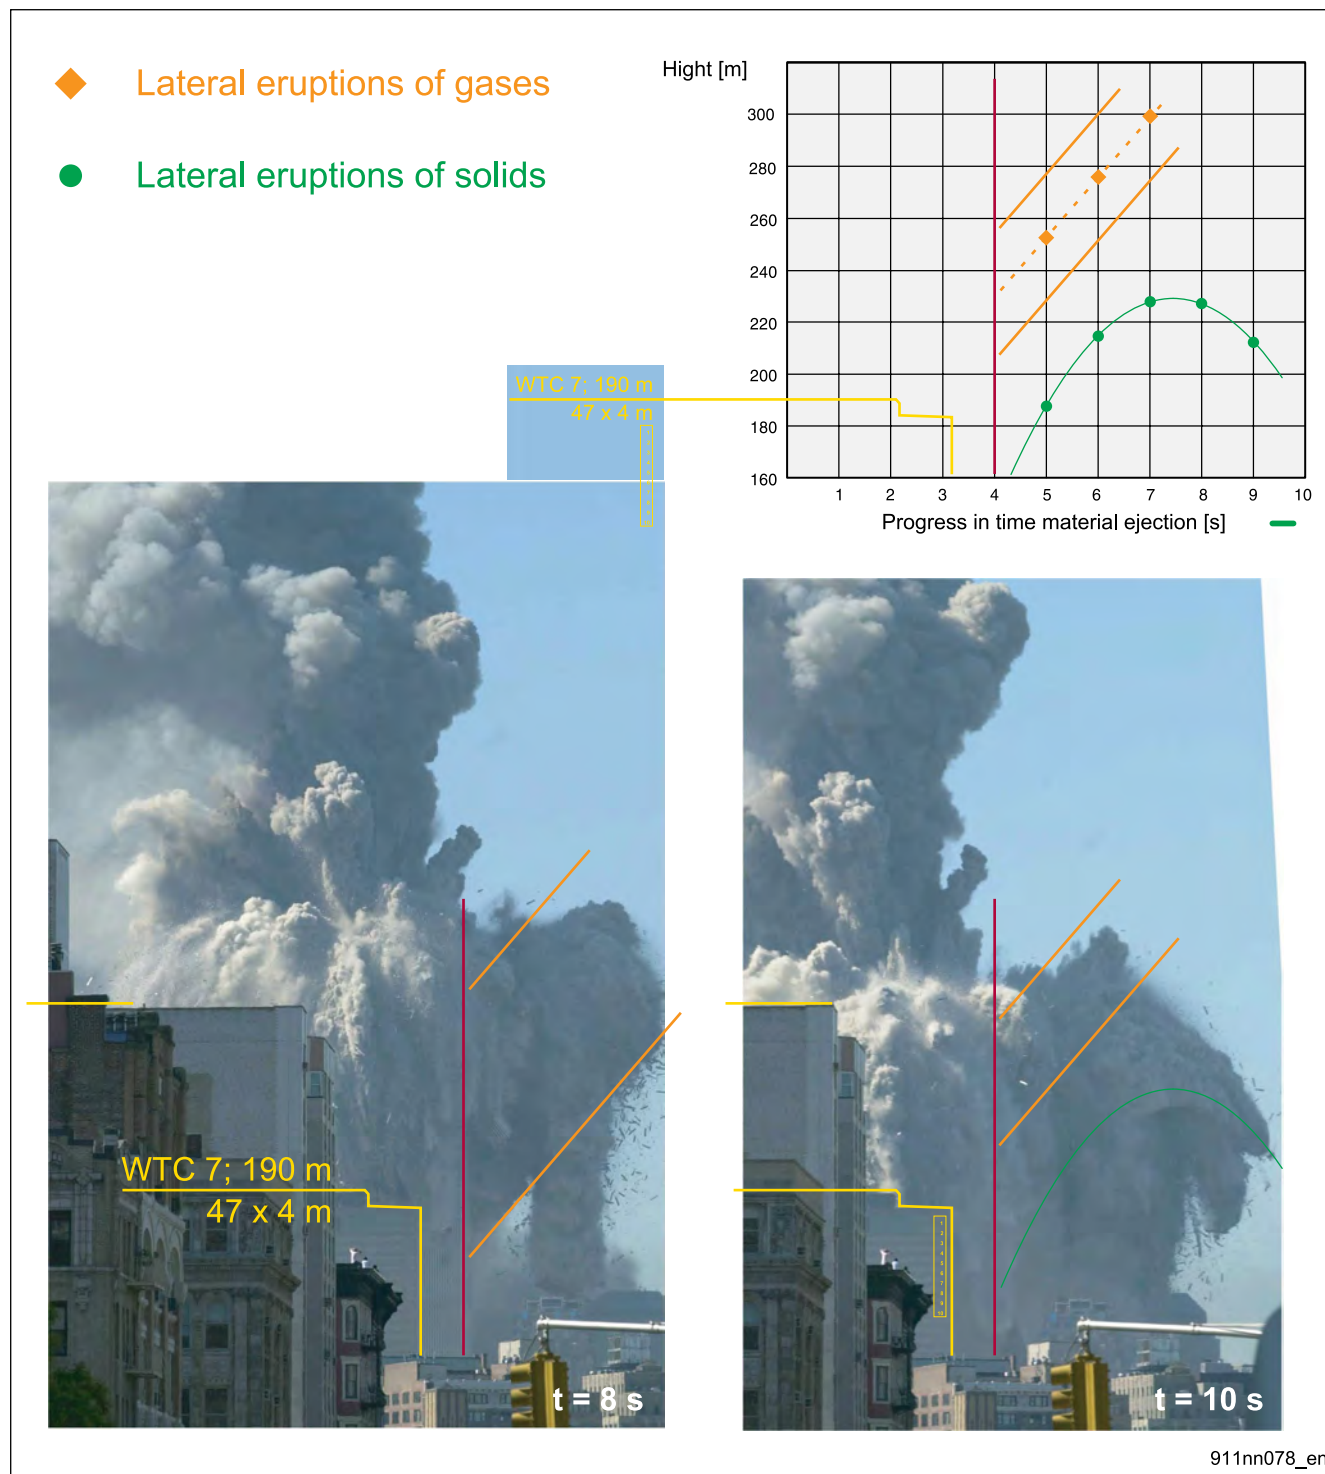

Fig. 1-6 Source: <http://911research.wtc7.net/wtc/evidence/photos/wtc1exp21.html>

1.6 Iron microspheres – steel rain

Did you know that the steel on the inside of the towers **vaporized** and condensed as microspheres just like rain drops in a thundercloud?

Iron microspheres: under the microscope / macroscopic: as dust on an orange

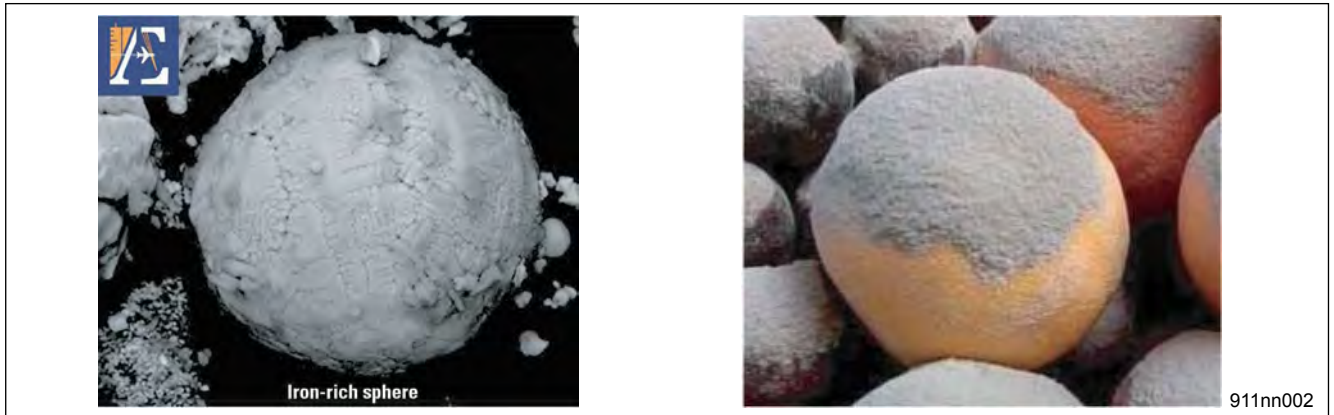

Fig. 1-7 Source 1: <http://www1.ae911truth.org/en/news-section/41-articles/348> / source 2: <http://pandoraopen.ru/2011-09-21/>

Wavefront of the dustcloud consisting of iron microspheres and pulverized concrete

Fig. 1-8 Source: http://911research.wtc7.net/wtc/evidence/photos/wtc_dust3.html

1.7 Pyroclastic dust cloud

Did you know that the dust cloud was **scorching hot** and that people got burned?

THE 9/11 TORONTO REPORT, p. 230; New York's News; David Handschuh

"A wave – a hot, solid, black wave of heat threw me down the block."

THE 9/11 TORONTO REPORT, p. 231; Paramedic; Manuel Delgado

"... and then we were engulfed in the smoke, which was horrendous. One thing I remember, it was hot. The smoke was hot and that scared me."

911nn211

Source 2: http://commons.wikimedia.org/wiki/File:Upshot-Knothole_Nancy_001.jpg

1.8 The melting pot

Did you know that a melting pot, i. e. a bed consisting of formerly molten rock was found under the World Trade Center?

(Rudy Giuliani, mayor of New York, 2002)

“They were standing on top of a cauldron. They were standing on top of fires 2,000 degrees that raged for a hundred days.”

911nn014

Fig. 1-10 Source: <http://donaldfox.wordpress.com/tag/underground-nukes/>

1.9 Plasmatic pinholing

Did you know that there is a **very simple** explanation for the entire destruction process observed?

Logical course of events

- Implosion (typical blast): connection of the elevator shafts
- Ignition of the nuclear weapon: strong neutron radiation in upwards direction, evaporation of the steel beams due to the absorption of fast neutrons
- **Shotgun principle:** formation of an upshooting, superhot plasmatic needle and eruption-like ejection of material / pulverization of the concrete due to a steam explosion of all the water chemically bound in the concrete
- Interaction with radioactivity: Cherenkov radiation
- Radiation protection sealing of the cavity, the bedrock remains radioactive

Shooting up into the sky – "Operation Upshot II"

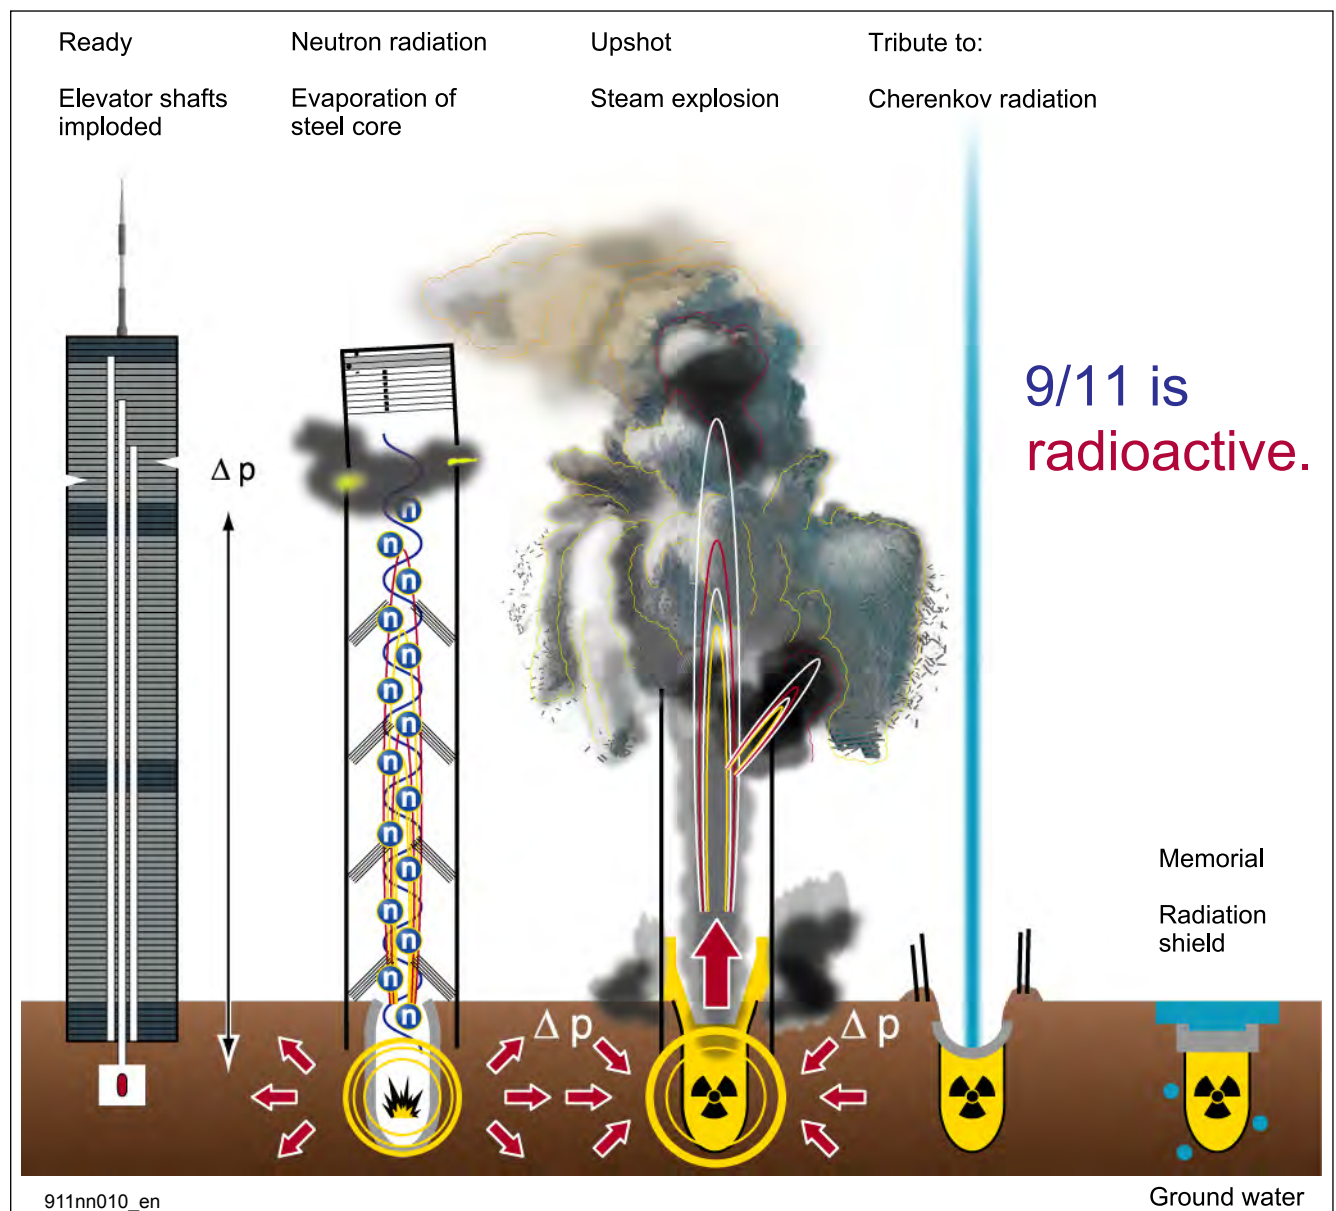

Fig. 1-11 Source (modified): http://en.wikipedia.org/wiki/Construction_of_the_World_Trade_Center

1.10 Results of the dust sample analysis

Did you know that the detected uranium fission products show a perfect correlation ?

- the samples collected at different locations all show the corresponding concentration of the **uranium** fission products **barium** and **strontium**

Table (U.S. Geological Survey USGS – official analysis data)

<http://pubs.usgs.gov/of/2001/ofr-01-0429/chem1/WTCchemistrytable.html>

i

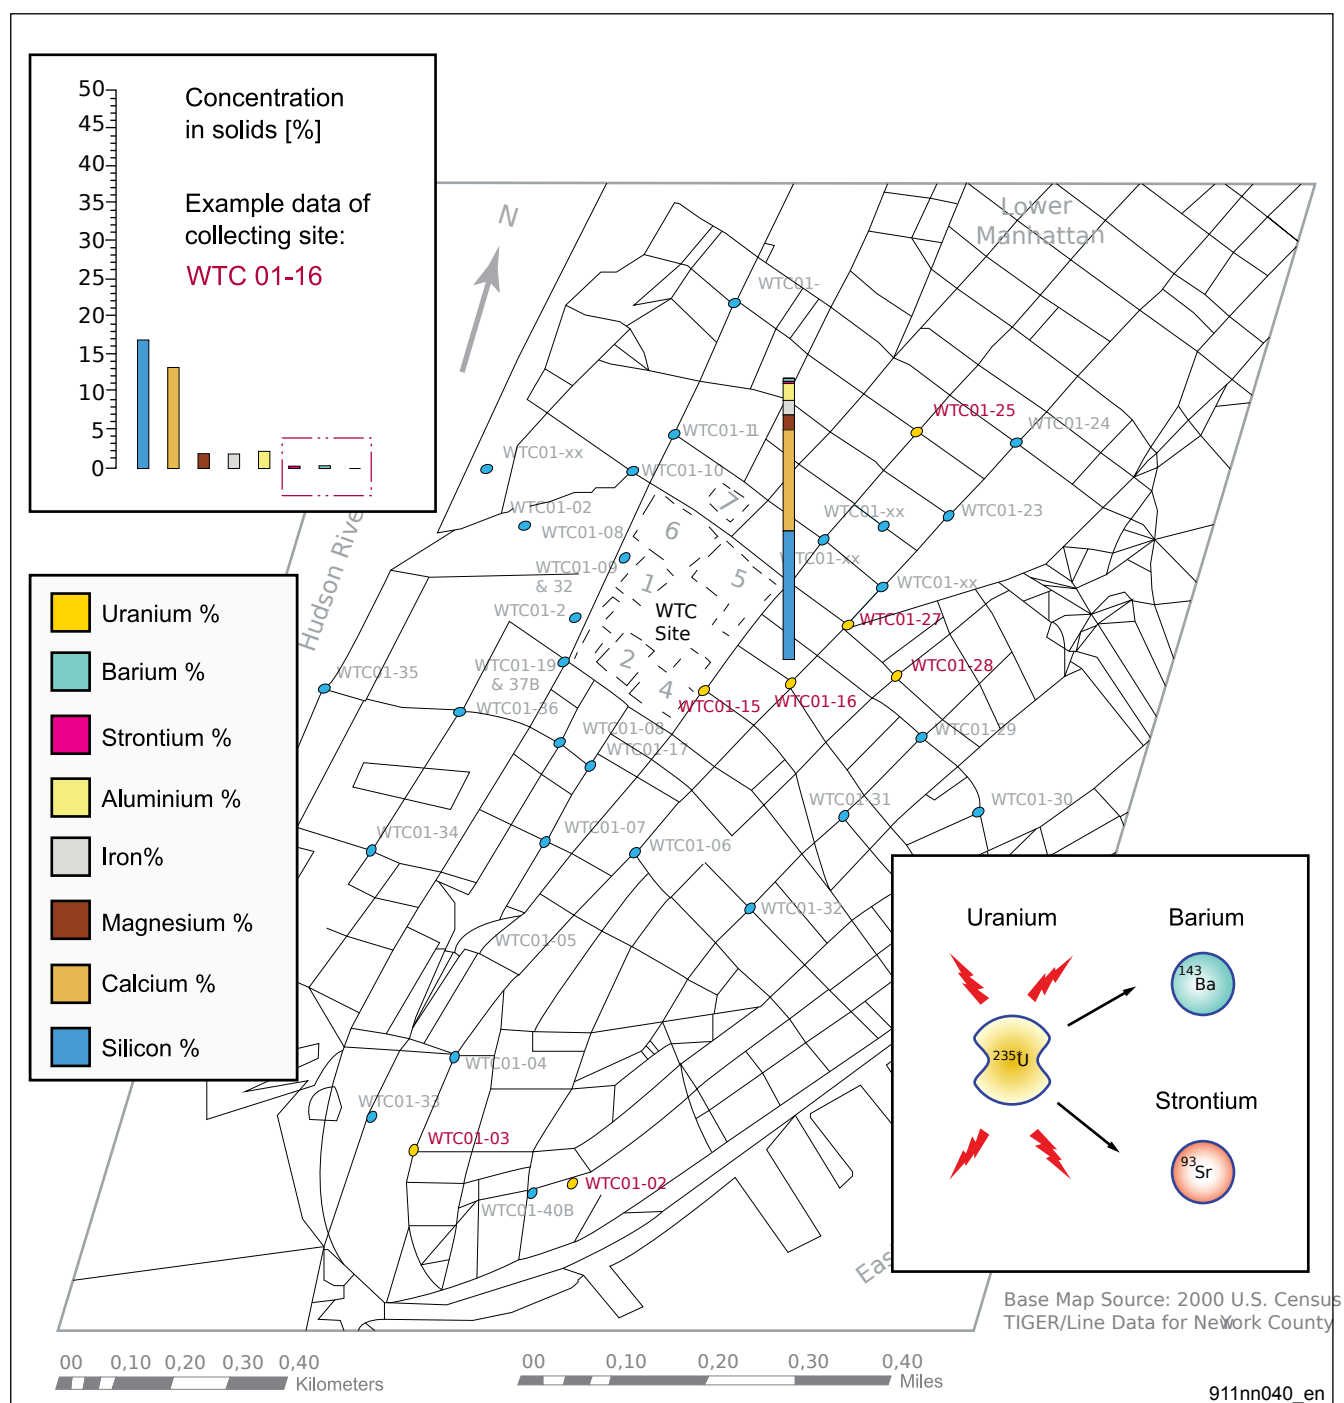

Fig. 1-12 Source (edited): <http://pubs.usgs.gov/of/2001/ofr-01-0429/chem1/index.html#Sampling>

Concentration of barium vs. strontium in World Trade Center dust samples

- High concentration of ^{235}U uranium fission products at sampling point WTC01-16

	Number of the location where the sample was taken						
[%]	WTC01-02	WTC01-03	WTC01-15	WTC01-16	WTC01-25	WTC01-27	WTC01-28
Uranium	0.000392	0.000196	0.000271	0.00023	0.000378	0.000336	0.000337
Barium	0.0765	0.0376	0.0405	0.367	0.0624	0.0470	0.0491
Strontium	0.1000	0.0409	0.0736	0.313	0.0695	0.0701	0.0711
Aluminum	4.13	2.75	2.59	2.27	3.28	3.05	3.59
Iron	4.13	2.16	1.87	1.92	1.33	1.72	1.85
Magne-sium	3.11	2.23	2.64	1.97	3.29	3.04	3.49
Calcium	15.01	9.58	18.58	13.36	20.37	19.51	19.73
Silicon	21.20	26.3	13.6	17.0	13.2	15.2	15.1

Tab. 1-1 Source (abridged): <http://pubs.usgs.gov/of/2001/ofr-01-0429/chem1/WTCchemistrytable.html>

Correlation of barium vs. strontium in World Trade Center dust samples

- the concentration of barium drops, i.e. the strontium concentration also drops
- the concentration of barium rises, i.e. the strontium concentration also rises

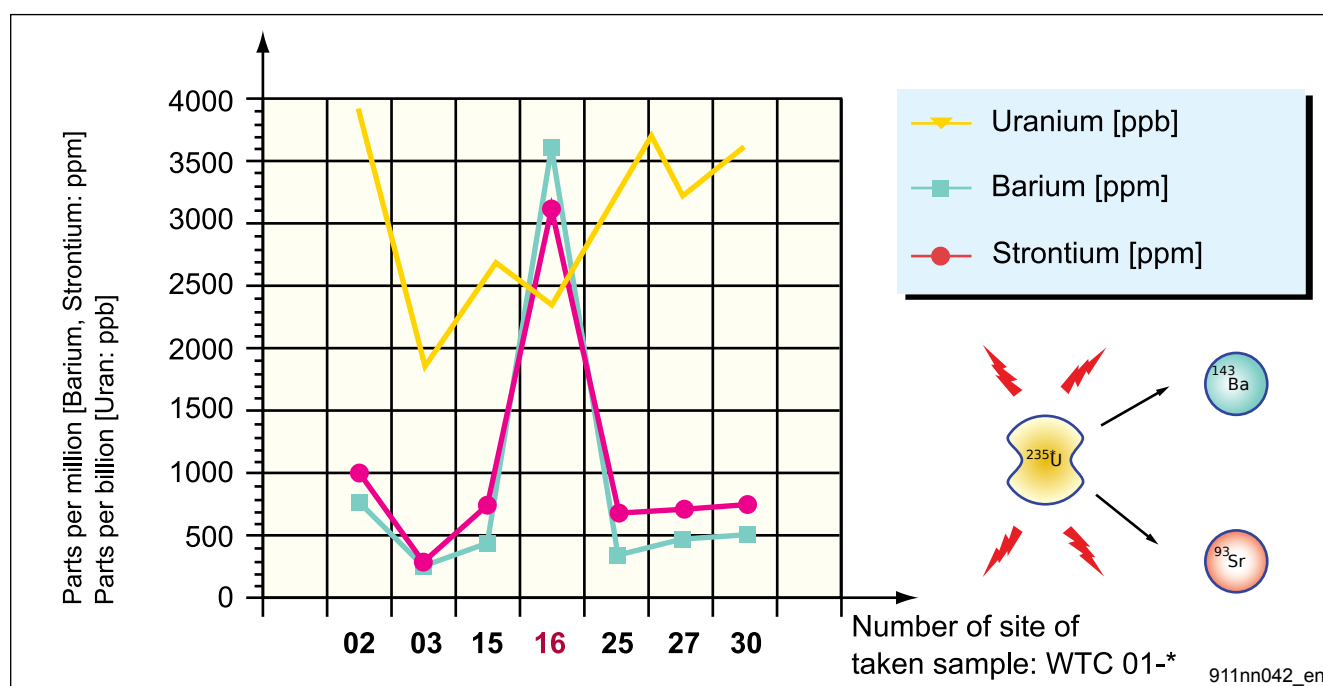

Fig. 1-13 Source (abridged): <http://nucleardemolition.com/>

1.11 Radioactive fallout

Did you know that a large part of the dust particles were blown out to the sea with the result that the fallout in New York was relatively low?

Dust cloud of the World Trade Center, NEXRAD radar image

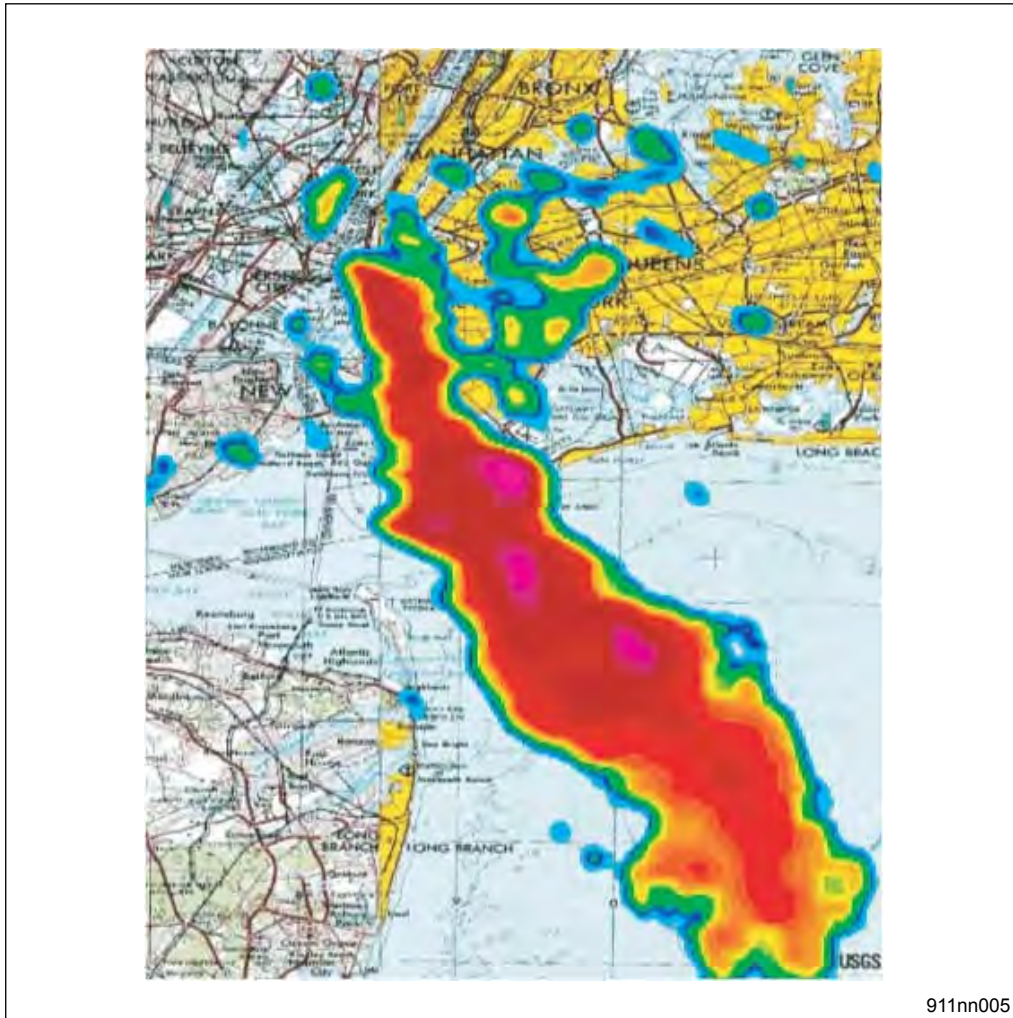

Fig. 1-14 Source: http://en.wikipedia.org/w/index.php?title=File:New_York_September_11_NEXRAD.png.

1.12 Cancer rates on the rise

Did you know that most of the first responders on duty during the World Trade Center disaster have fallen ill and hundreds died of cancer?

Title: Nine years after 9/11, 900 responders are dead.

<https://www.youtube.com/watch?v=hhVQ5lbzwCQ>

Title: Hundreds of 9/11 first responders die of cancer.

<http://rt.com/usa/nyc-firemen/>

1.13 Neutron radiation / radioactive radiation

Did you know that iron vapor excellently **compensates and neutralizes** neutron radiation and radioactive radiation?

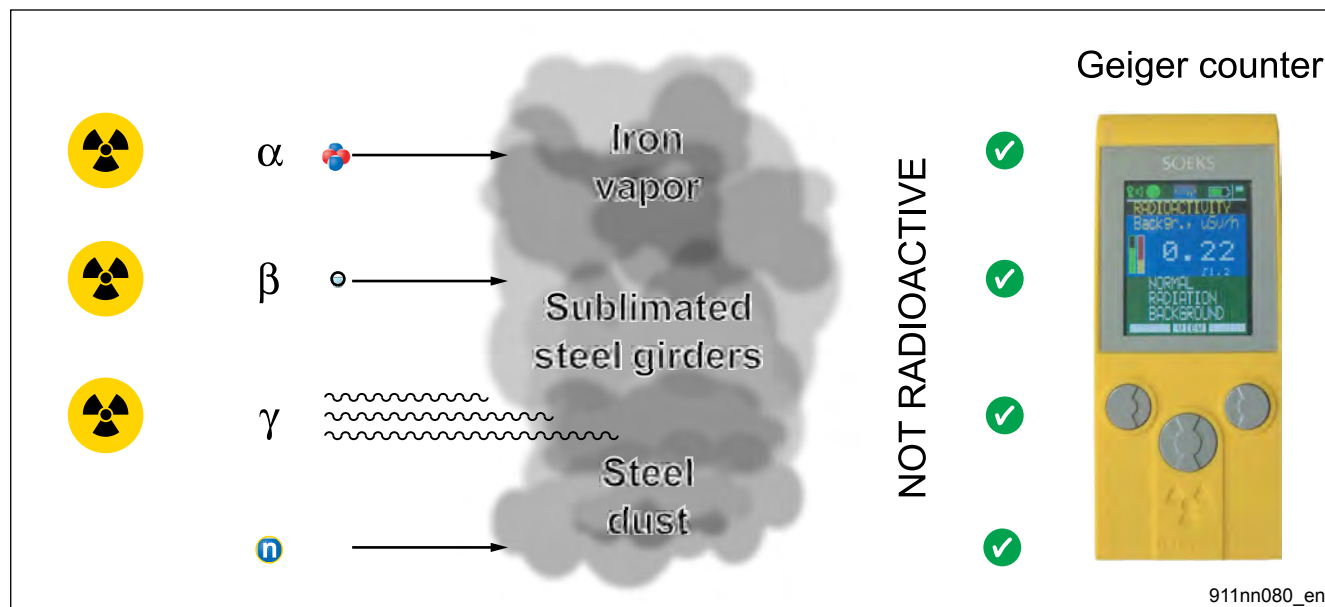

Fig. 1-15 Source (modified): <http://en.wikipedia.org/wiki/Radiation>

1.14 Non-radioactive isotopes of iron

Not radioactive – **not causing a signal in the Geiger counter** – are the following isotopes:

- ^{54}Fe ; ^{56}Fe ; ^{57}Fe ; ^{58}Fe

Iron can absorb a lot of neutron radiation WITHOUT getting radioactive itself

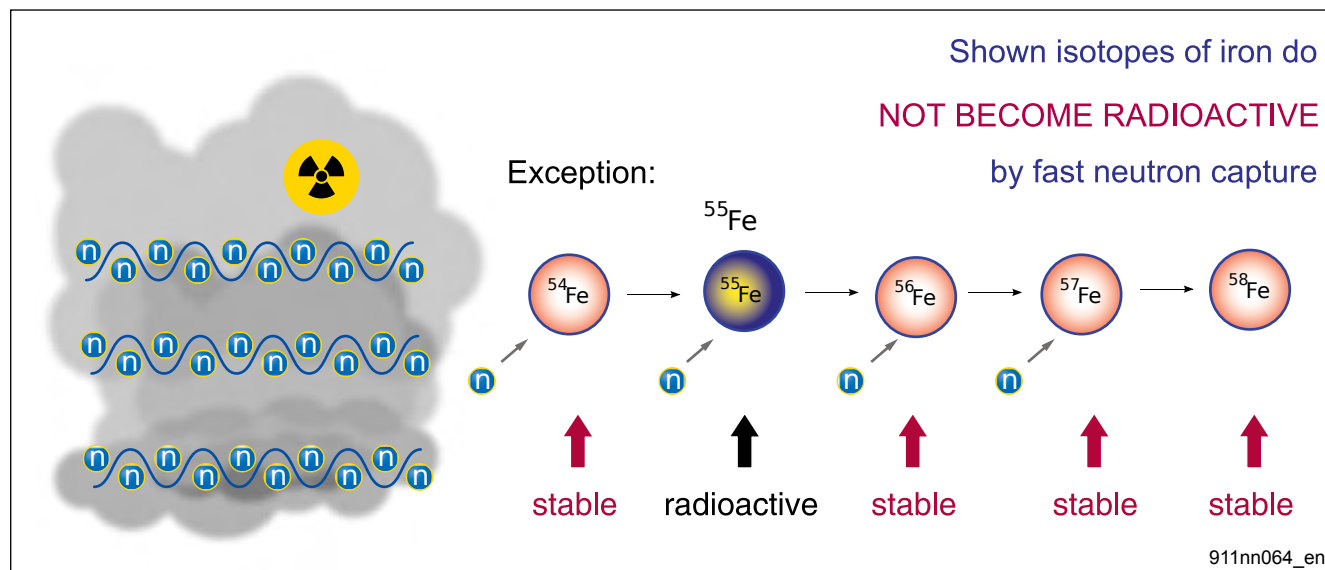

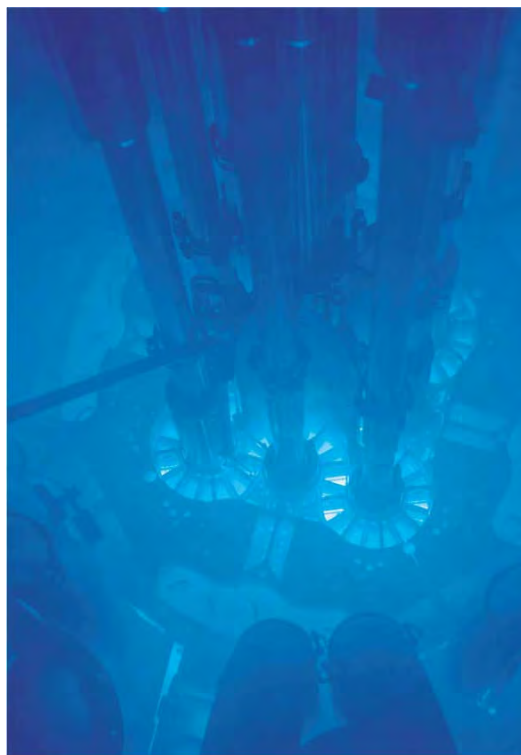

Fig. 1-16 Capture of "Fast Neutrons" in iron (Fe)

1.15 Wavelength and color of the "Tribute in Light"

Did you know that the color of the blue "Tribute in Light" in New York coincides with the color of the blue Cherenkov radiation, caused by radioactivity?

911nn096

Fig. 1-17 Source 1: http://en.wikipedia.org/wiki/Cherenkov_radiation
Source 2: http://en.wikipedia.org/wiki/Tribute_in_Light

1.16 Water basins as radiation shield

Did you know that water is an excellent shield against radioactive radiation?

911nn097

Fig. 1-18 Source: https://en.wikipedia.org/wiki/National_September_11_Memorial_%26_Museum

1.17 Infrared images

Did you know that infrared images taken in October 2001 still show high temperatures coming from scorching hot steel in the base of the buildings?

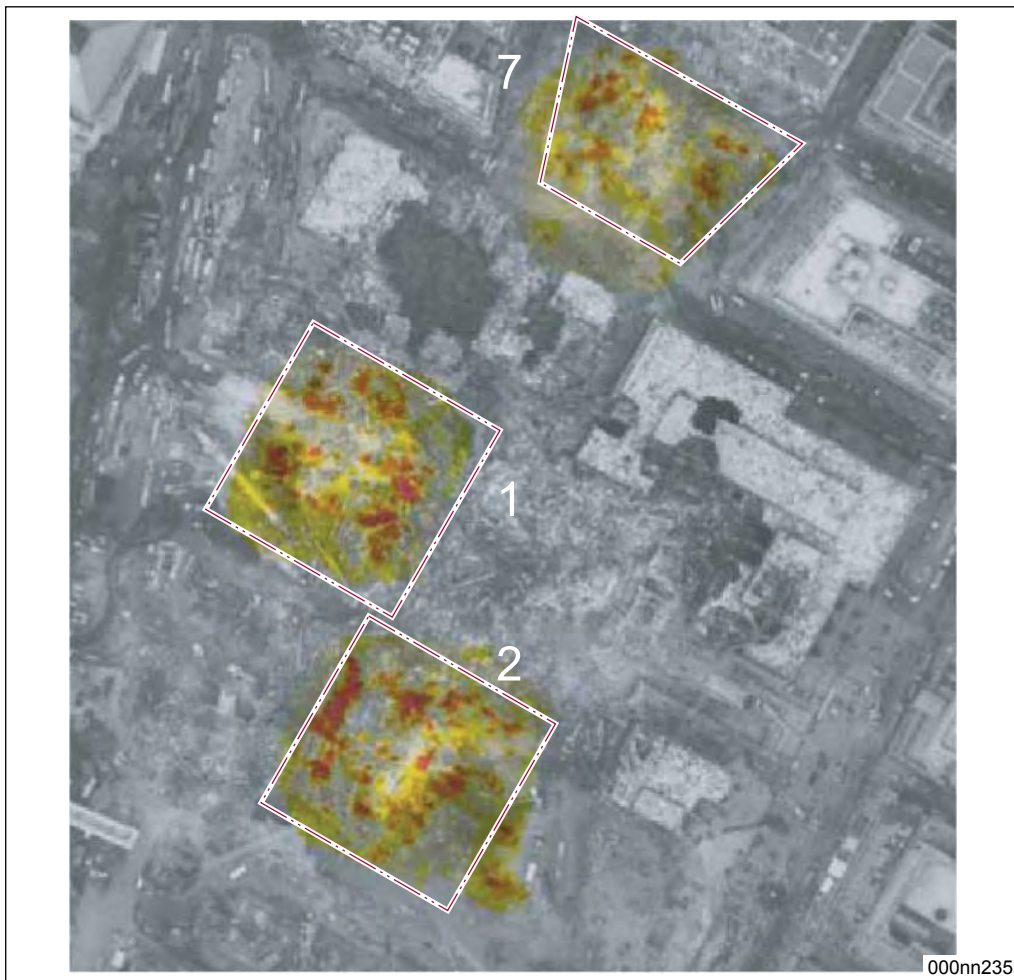

Fig. 1-19 Source: http://911encyclopedia.com/wiki/index.php/World_Trade_Center_Hot_Spots

Fig. 1-20 Source: <http://www1.ae911truth.org/en/news-section/41-articles/347>

1.18 Building WTC-7

Did you know that on this very day a third tower disappeared in a gigantic mushroom cloud?

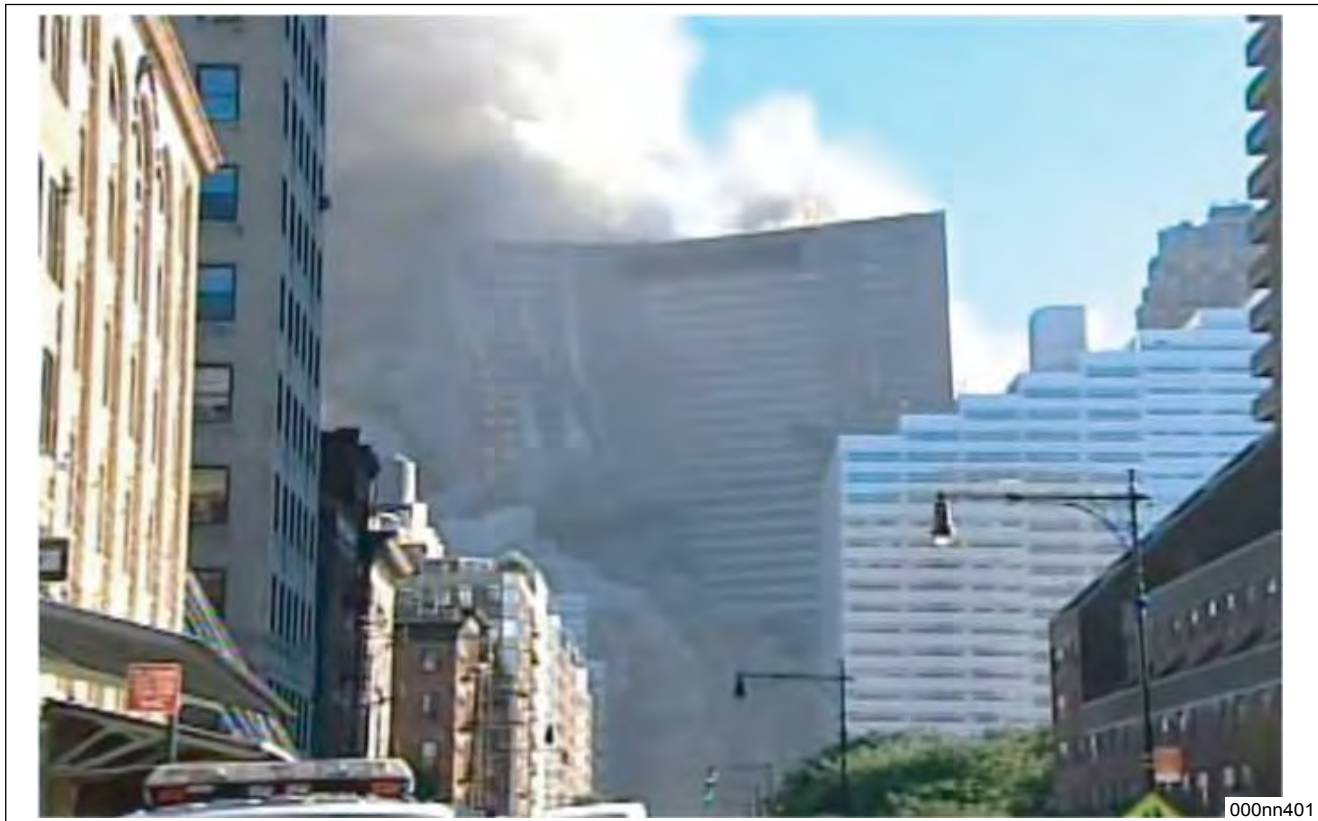

Fig. 1-21 Source @05:35: <http://www.youtube.com/watch?v=JnLcUxV1dPo>

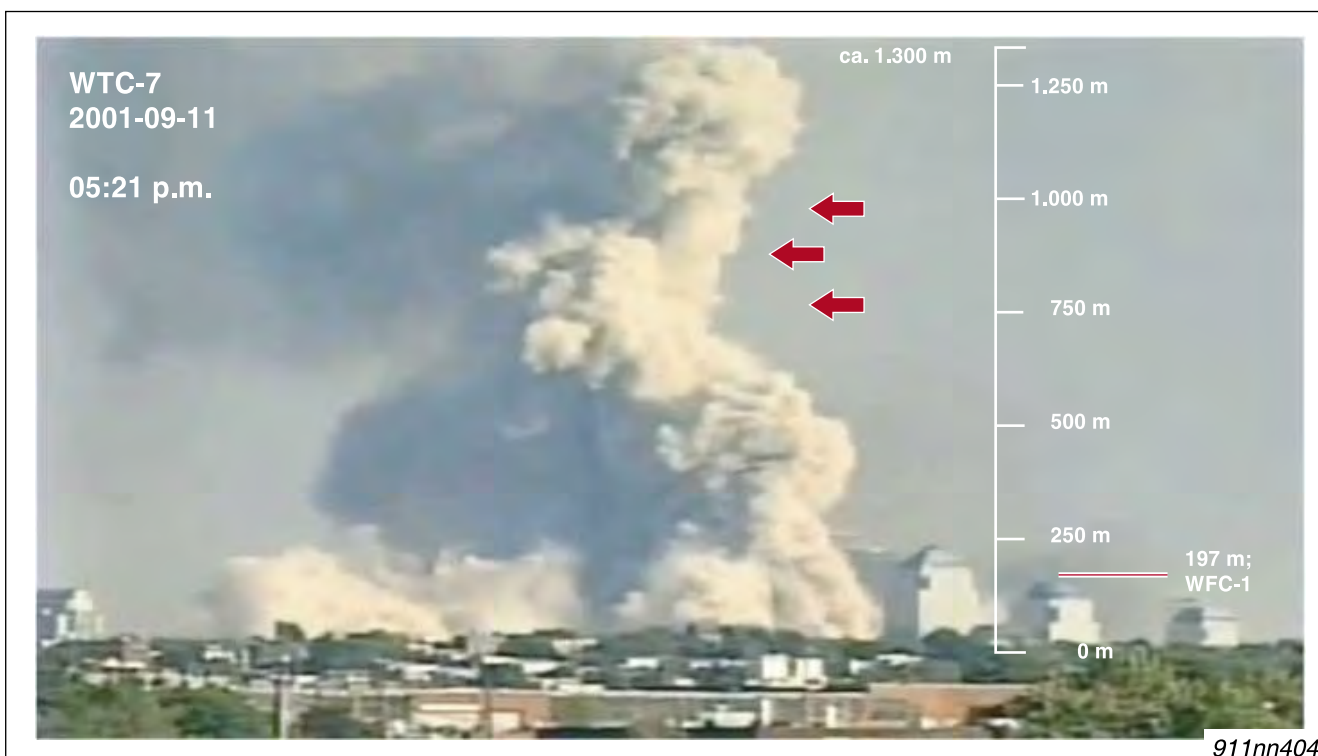

Fig. 1-22 Source @12:33: <http://www.youtube.com/watch?v=JnLcUxV1dPo>

1.19 Vortex

Did you know that the mushroom cloud of Building 7 formed a vortex caused by friction between the hot [inner] gases of the mushroom cloud and the cold ambient air?

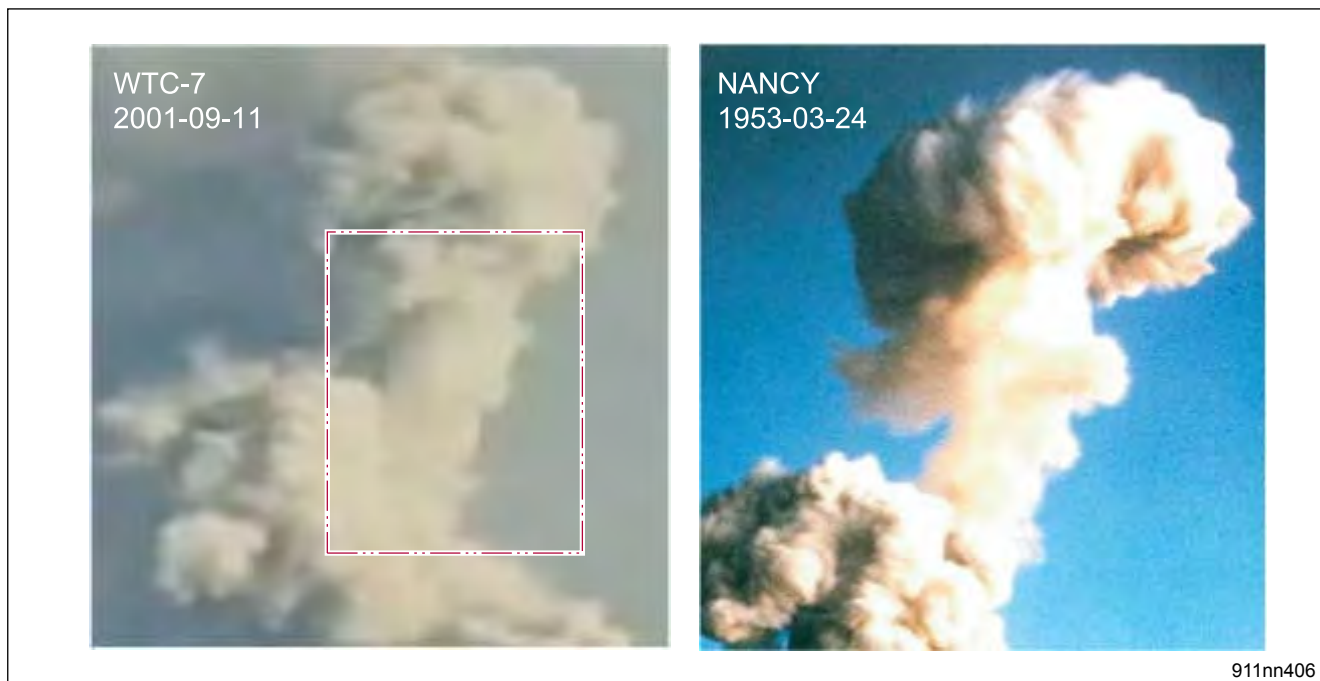

Fig. 1-23 Source 1: @13:11: <http://www.youtube.com/watch?v=JnLcUxV1dPo>
Source 2: http://commons.wikimedia.org/wiki/File:Upshot-Knothole_Nancy_001.jpg

Formation of a vortex hose during high-energy explosions

In the friction zone between hot and cold air rotation and condensation phenomena occur (white, bell-shaped or hose-like, partly rotating structures).

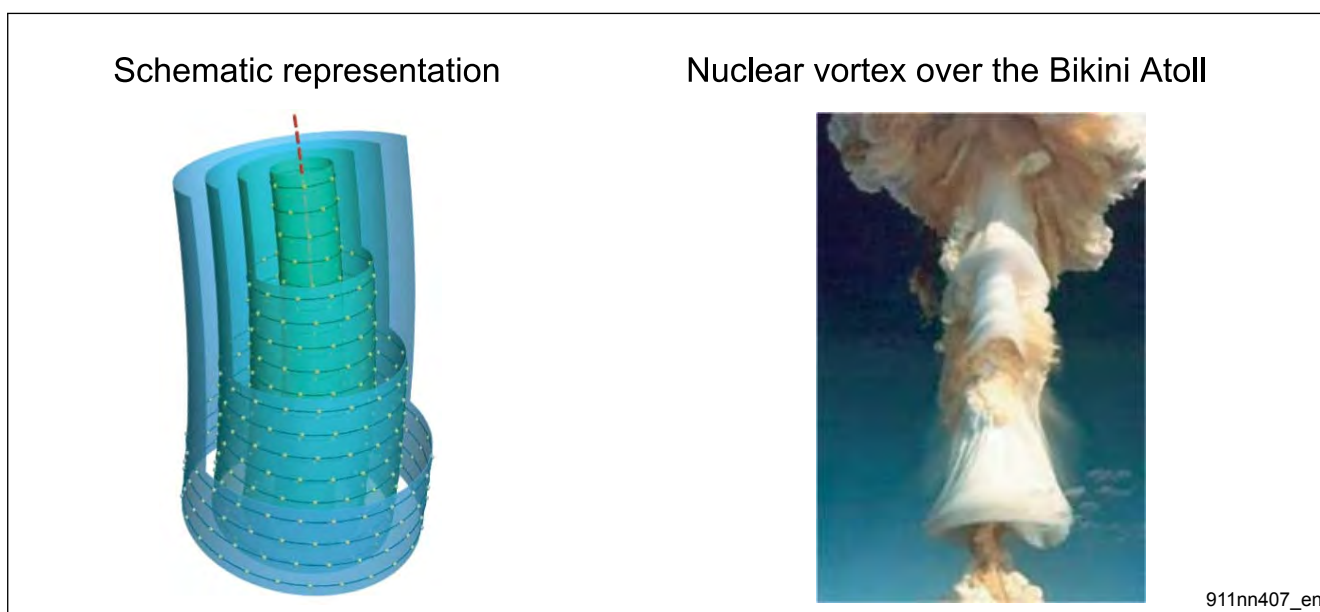

Fig. 1-24 Source 1: <http://en.wikipedia.org/wiki/Vortex>
Source 2: <https://www.flickr.com/photos/epicfireworks/3542212906/>

1.20 The Pentagon

Did you know that all damage to the buildings was caused by multiple, time-shifted explosions?

Fig. 1-25 Source: <http://911research.com/pentagon/evidence/photos/bluehi.html>

Did you know that all of the wreckage secured were parts of a small airplane found at a heliport 50 m away?

Fig. 1-26 Source: <http://911blogger.com/news/2006-11-25/military-exercises-and-911-pentagon-attack>

2 Orchestration of a "Dirty Bomb Attack"

Did you know that the NYPD had been preparing for years for a "dirty bomb explosion", a bomb contaminated with radioactive particles?

Police Commissioner Raymond W. Kelly

"... we also must be prepared to interdict a nuclear or radioactive device should one come our way."

NO THE RING OF PROTECTION

FIRST RESPONDERS IN THREE STATES TO INTERDICT "DIRTY BOMB"

Five-Day Exercise Begins Tuesday; Involves 150 Agencies, Activity on Land, Rail, Highways, and Waterways of Region

Beginning tomorrow, Tuesday, April 5 at 11 a.m. and continuing through Saturday, April 9, the New York City Police Department and its 12 principal law enforcement and public safety partners in the Securing the Cities Initiative (STC), will conduct a full-scale exercise involving hundreds of personnel from 150 law enforcement and other first responder agencies in the tri-state region. The exercise is designed to evaluate their combined ability to detect and **interdict radiological materials** that could be used in a terrorist attack in the region.

The exercise will involve activity in **New York**, Connecticut and New Jersey on land, including rail and highways, and in the waterways of the region. The exercise is not the result of a specific threat.

3 New false flag attack of the USA?

The war with Iraq was triggered by the destruction of the World Trade Center.

Today Iraqi oil-wells are controlled mainly by U.S. companies.

3.1 Encircling and demonization of Russia

We expect another self attack – nuclear as the case may be – of the US with the aim to start a war with RUSSIA supported by the NATO and the EU.

- The aim: access to natural resources and neutralization of RUSSIA

Once again the U.S. is preparing for war, which has already been started in Ukraine.

Once again the aim of the U.S. is the same: access to natural resources, worth 500,000,000,000 Euro per year.

Fig. 3-1 Encircling and demonization of Russia

3.2 How to get involved

Talk to friends and colleagues and tell them about the nuclear fission products that were found in the dust samples collected after the World Trade Center disaster.

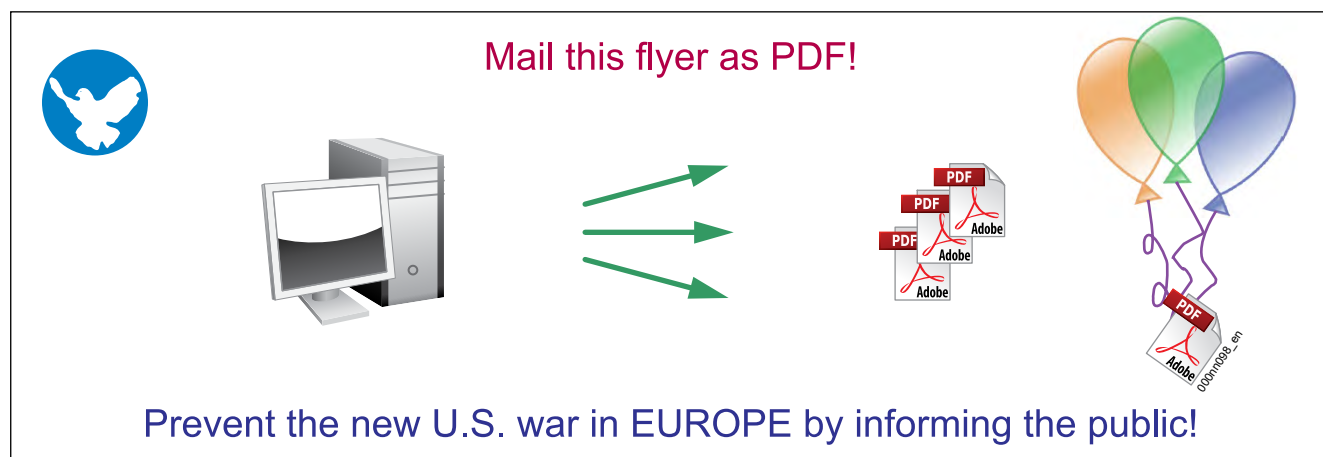

Fig. 3-2 How to get involved

Prevent the US from committing other synthetic acts of terror!
